Alarm Sound Action Wizard

This tutorial will take you through the steps necessary to set up an alarm sound action using the notification wizard.

This tutorial provides you the information needed to setup an alarm sound action via the notification wizards.

To get to the starting point of this tutorial:

- Log in as administrator
- Click the “Notifications” tab

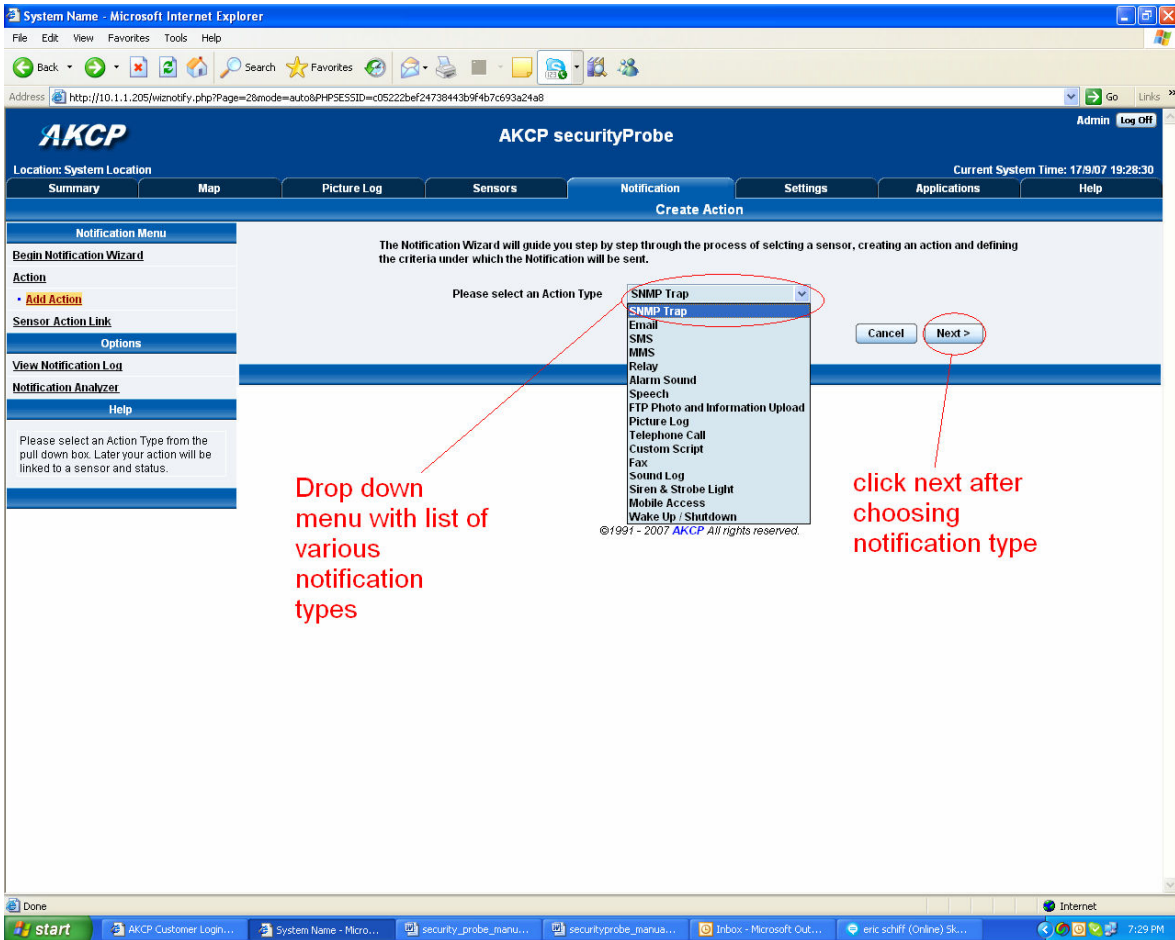

1. Adding a notification

a) First click on the “notification wizard”

The screenshot shows the AKCP securityProbe web interface in Microsoft Internet Explorer. The browser address bar shows <http://10.1.1.205/wenotify.php>. The page title is "System Name - Microsoft Internet Explorer". The main content area is titled "AKCP securityProbe" and includes a navigation menu with tabs: Summary, Map, Picture Log, Sensors, Notification, Settings, Applications, and Help. The "Notification" tab is selected and highlighted with a red circle and the text "Click notification tab". Below the navigation menu, there is a "Notification Menu" section with a link "Begin Notification Wizard" circled in red and labeled "Click here to begin setting up a notification". The main content area displays a table of actions with columns "Action Type" and "Action Name". The table lists various actions such as SNMP Trap, Email, Alarm Sound, Speech, and Picture Log. At the bottom of the page, there are buttons for "Create", "Duplicate", "Edit", "Remove", and "Test Action". The footer of the page contains the copyright notice "©1991 - 2007 AKCP All rights reserved."

Action Type	Action Name
SNMP Trap	SNMP Trap 1
SNMP Trap	SNMP Trap 2
SNMP Trap	SNMP Trap 3
SNMP Trap	SNMP Trap 4
SNMP Trap	SNMP Trap 5
SNMP Trap	SNMP Trap 6
Email	Email 1
Email	Email 2
Email	Email 3
Alarm Sound	Alarm Sound 1
Alarm Sound	Alarm Sound 2
Speech	Speech 1
Speech	Speech 2
Speech	Speech 3
Picture Log	Picture Log 1

b) You will now have the notification wizard page displayed, like below.

c) select alarm notification from the notification type

Please choose a name for your **Alarm Sound** Action. Descriptive Action names increase the simplicity of the system.

Select the sound file to use from the drop down box. You may select one of the predefined sounds or upload your own sound .Add your own sound by clicking the **Add Your Own Sound** button, locating the file on your computer and clicking **Add Sound File**. This will add your sound to the drop down box.

Pressing the Test over Speaker button, will cause the Speaker in the securityProbe to play the selected sound.

You may also define the length of time and volume of the played sound.

Click **Next** to continue

Define the Maximum number of Times and Interval between attempts that the sound is played

Click **Finish** to Save your Action
